Background

TechRate was commissioned by XAN to perform an audit of smart contracts:

<https://tronscan.io/#/token20/TQS5UxB745AnGAwv3CoLJcFtaUDANEJFmA/code>

The purpose of the audit was to achieve the following:

- Ensure that the smart contract functions as intended.
- Identify potential security issues with the smart contract.

The information in this report should be used to understand the risk exposure of the smart contract, and as a guide to improve the security posture of the smart contract by remediating the issues that were identified.
